OACYS is building a new tower
But where is it?

Teaser alert – construction of our newest tower site is nearly completed!

When this tower is activated it will expand OACYS service into new areas, improve service to some of our current farthest reaches, and even improve service to existing areas it won't directly serve.

Details on where it is, when it will be live and how it will be a great addition to our local coverage areas are coming soon – stay tuned!

Tired of satellite? You're not alone … many of our new OACYS accounts are customers switching from satellite, DSL, and others. Tell your friends and receive a referral credit for up to a month's free service.
